

Benefits

- Made to your own specific requirements
- Brings your public spaces to life
- Finest quality materials and manufacturing methods
- Practical and efficient solutions
- Planters can be supplied on their own or fully planted
- Low maintenance design means planters can go for days without watering

bespoke planters

your ideas... our expertise!

With an excellent balance of style and strength, Plantscape's Bespoke range of stainless steel planters are delivered and planted on site, and can come complete with a super efficient self watering system.

We understand that you know your public space better than anyone, and this knowledge combined with our expertise and experience in developing stylish and practical solutions produces results that you can display with pride.

Prototype, development and communicating with the client regularly ensures we meet your original brief every time.
