

pedal park

the attractive way to park your bike!

Plantscape's Pedal Park Planter is a stylish, practical and secure way to park your bicycle, adding a splash of colour to any civic surrounding.

The environmental advantages of cycling are endless, but for the two wheeled traveller finding a safe and secure place to park can be a real problem. Locked onto barriers and railings, bikes can often leave streets looking untidy, but the Pedal Park Planter enables neatly parked bicycles to keep streets tidy, whilst at the same time creating an eye-catching floral display.

low maintenance and secure

With integral security staples, the Plantscape® Pedal Park is well protected against theft and vandalism. The built in water reservoir system in all of our planters mean they can go for days without watering.

Pedal Park	
	<p>Specification:</p> <ul style="list-style-type: none"> • 1250mm x 750mm x 750mm • Water reservoir capacity 349 litres • Compost capacity 500 litres • Standard pedal park comes with double cycle rack to one side <p>REF: PPP1</p>
