

barrier baskets

making your highways bloom!

Plantscape's eye-catching Barrier Baskets are the perfect solution to brighten your streets and highways. Incorporating a special low maintenance feature for easy watering and feeding, their unique design means they can go for days without watering.

Available in two standard sizes and in a variety of colours, our baskets come with galvanised bracket fixings to enable mounting on the top rail of central reservation barriers or railings - any size, round or square. Our brackets come in three standard sizes but our bespoke service means that if none of these sizes fit your barrier we can make them specially to suit.

all year round planting

The use of our insert liners means easy planting in winter or summer. Utilising our liners, plants can be grown in the nursery becoming established before being changed over to give an immediate change of scenery. Insert liners can be made secure by using our simple security bracket which slides down inside each liner and is secured by a cap head screw.

Benefits

- Easy accessible holes for watering & feeding
- Fixes onto a variety of railings & barriers
- Insert liners allow all year round planting
- Liner security bracket available
- Two standard sizes 680mm & 1250mm
- Available in a variety of colours

Use of insert liners allows plants to become established in our nursery giving an immediate burst of colour
